

MSUM & Concordia Shelter Construction

The 14th Street passenger shelter on MSUM campus has been removed temporarily, while improvements are being made. Improvements will include replacing concrete, and a new larger shelter with heat, lights, and a kiosk. The project will not be completed until mid to late December due to the delivery of the custom shelter. A new shelter is being placed along 11th Street on MSUM campus and will be completed in the next two weeks.

The 5th Street passenger shelter by Concordia College is also being improved, including relocation, new concrete, a new larger shelter and lights. The old shelter will be kept in place during construction. The project will not be completed until mid to late December due to the delivery of the custom shelter.
